

## Visual Language

- Space: the area inside and around something. Can refer to how things are organized on a picture plane, surface of a work of art, or in relation to how someone is intended to view a work of art.

### The 4 Kinds of Space

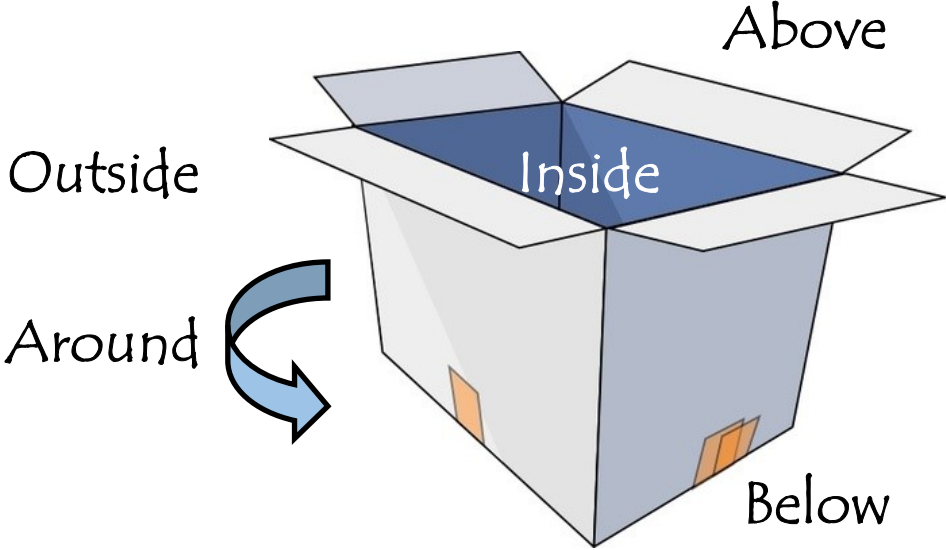

- 2-D Space: emphasis on the flat space on the surface of a work of art or shapes.
- 3-D Space: something that has form to it or creates the illusion of depth of field using linear perspective.
- Positive Space: the area inside a shape or the object.
- Negative Space: area outside of a shape or around an object.
